Making Good.

There is no way of making *lasting* friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have *not* made drunkards.

A good, honest, square-deal medicine of known composition is **Dr. Pierce's Golden Medical Discovery.** It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore *don't accept a substitute* that the dealer may possibly make a little bigger profit. *Insist* on your right to have what you call for.

Don't buy **Dr. Pierce's Favorite Prescription** expecting it to prove a "cure-all." It is only advised for woman's *special* ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the *original* Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much *imitated* but *never equaled.*

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

PROPOSED VISIT OF FLEET.

If the rumor of yesterday that a German fleet of considerable proportions intended making a protraced and friendly visit to the United States after the Atlantic battle-ship fleet of Admiral Evans has gone to the Pacific coast should prove to be true, that visit may be potent with political possibilities.

There is a suspicion in certain well-informed circles that this rumor has been started as a feeler for the purpose of sounding American sentiment in the matter. Just where the rumor sprang from no one appears to know, but evidences are not wanting that Germany would be delighted to send a big fleet to American waters for political reasons of her own, in addition to any possible disposition the Kaiser may have to show his friendliness for the American people by such a visit of ceremony. If the American people take up with the idea, the fleet probably would be sent; if the proposition is condemned, an official denial of any such intention would easily close the incident.

It can easily be seen that, aside from her desire to maintain the most friendly relations with the American government, it is not the purpose of Germany to permit Japan to dispose of matters in the Orient entirely to her own satisfaction, if such settlement can be prevented. The way to do this, apparently, from the German viewpoint, is to keep Japan in a state of irritation until German interests are properly cared for. Germany, in common with Great Britain and Russia, after the close of the China-Japan war in 1894, prevented Japan from enjoying the spoils of war by seizing territory that ordinarily would have gone to the victor Under concessions from China, Germany today owns the port of Kiao-chaou and the Shantung Peninsula on the China sea, a naval station, railroads, and coal and iron mines. Through these Germany hopes to control its share of the trade of the Orient.

THE HARTJE DIVORCE CASE.

Just on the eve of the handing down of a decision by the Superior Court in Philadelphia in the divorce suits of Augustus Hartje against his beautiful wife, Mary Scott Hartje, sensational evidence has been filed with the Superior Court by Hartje, which has caused the Superior Court judges to hold back the decision. Hartje charged that his wife, with the assistance of Tom Madine, attempted to poison him—that he has evidence showing she administered a deadly drug to him in Paris.

The new alleged evidence may result in an entirely new decision, and cause the Superior Court to grant a new trial to the millionaire paper manufacturer.

The new evidence includes letters alleged to have been written by Mrs. Hartje's two sisters, Helen and Ida, to Howard Lappe, to whom Ida was engaged to be married, and with whom she eloped to Youngstown, only to be brought back by her father before the ceremony was performed. It is alleged by Hartje that he purchased these letters from Lappe, whose attentions to Miss Ida Scott have since ceased.

Sensational evidence is contained in the alleged letters from Ida and Helen Scott, in which, it appears, they actually concocted a scheme to blackmail their own father, compelling him to give them money, or, as an alternative, they would refuse to testify for their sister, and testify instead for Hartje, thus telling the truth, as the letter intimates.

His Dear Old Mother.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all druggists. 50c.

ATTACKS ON JEWS.

The unionists of Odessa continued yesterday their attacks and outrages upon Jews. They began by surrounding the Hebrew cemetery, where a funeral service was going on. First they stoned and then they fired a volley of revolver shots at the mourning Jews, many of whom were wounded. The Jews fled in a panic.

Later in the day members of the Black Hundred divided themselves into small groups and ransacked several Jewish shops, mercilessly beating the proprietors. A police sergeant who attempted to intervene was brutally attacked, whereupon he drew a revolver and killed one of his assailants. There were fewer police than usual on the streets yesterday. After further Jew-baiting detachments of Cossacks arrived on the scene, but instead of pursuing the Black Hundreds they laughed at the rapidity with which they made their escape. Up to the present time Governor General Novitsky has made no attempt to stop the outrages, but, nevertheless, they are diminishing gradually.

A Certain Cure for Croup—Used for Ten Years without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much fear the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by Gibson & Timberman and W. F. Creighton & Co.

[Editorial in Hartford, Conn., Daily Courant]

Collector P. Davis Oakley has voluntarily withdrawn the personal bond of $25,000, given for the proper performance of his duties, and has substituted the bond of a fidelity company for the same amount. This commendable action deserves a passing comment. Mr. Oakley found no difficulty whatever in getting bondsmen, but, whoever his bondsmen might be, there could be no denying that they had put the collector under a direct personal obligation to them. It is far more independent and self respecting, to go down into your own pocket for the premium and pay a corporation, chartered for the purpose, for giving its bond for you. This cost him some money, but with that he buys complete personal independence and sets an example that should be widely followed. It is the way to do business; and it is no reflection upon willing friends to go instead to a company. On the contrary, it is doing them a favor.

This bond was written by the

AND VIRGINIA ADVERTISER

TUESDAY EVENING, OCT. 8, 1907.

JUST one American steamer has been secured to carry coal for the batt'eship fleet at a rate 50 per cent. greater than the bids of foreign steamers. Other American owners are holding out for a still greater margin over the foreign bids. Concerning this the New York Times well says:

The country has just been favored with an unmistakable object lesson on the nature of the scheme of ship subsidies. The coaling of the fleet on its way around South America will be the chief item of extra expense beyond that of maneuvering in home waters. The natural and business like way of securing this service was to advertise for it and give the work to the lowest bidders. But, when this was proposed, the subsidy hunters began with one accord to protest against going into the open market and taking their chances with foreign competitors. To appease them, they were offered the enormous bonus of 50 per cent. advance in price over the lowest foreign bidders. But even this enormous and unjustifiable bounty does not tempt them. A contract for supplying some ten or fifteen thousand tons of coal a month is certainly worth taking. Much more when the bidder is assured of half as much again as somebody else will do the work for. But three of the four American bidders have withdrawn. The fourth explains that his ship can do the work at the market rate plus 50 per cent only because she is already engaged in the Hawaiian trade. And so 95 per cent. of the coaling of the American fleet is to be done by foreign colliers. The next time that one of the advocates of ship subsidies undertakes to tell a committee of Congress that the margin of difference is, after all, not so very great and that a moderate subsidy will make it up, this unimpeachable testimony of the open market will rise up to confute him. On the showing in this transaction, it will cost more than half as much again to carry goods in American bottoms than it costs to carry them in foreign bottoms. How much more may be a matter of conjecture, but the American taxpayer will have to make up more than a third of the total freight bills of the subsidized ships. Much enduring creature as he is that prospect ought to startle him.

TO HIS congregation in St. Stephen's Church, Tottenville, Staten Island, Rev. Guy C. Jamieson, pastor, read the first instalment of his novel, "Captain Jacklyn's Club," Sunday night. Rev. Mr. Jamieson will continue the reading of his novel every Sunday evening during the next three months. He hopes, by diversifying the service, to draw larger congregations and to point to them a strong, good moral. His novel, written with this purpose, teaches temperance in strong drink and urges the extinction of the saloon. In contrast to the above the School of the English Bible for Washington, under the auspices of the American Society of Religious Education, which last Friday evening formed a large class in Hamline Methodist Episcopal Church in that city, including members of seven churches in that neighborhood, will this evening organize another class in St. Stephen's Episcopal Church, on Fourteenth street, near Columbia road, for the benefit of seven churches on Columbia Heights. A third class will be formed tomorrow evening in North Carolina Avenue Methodist Protestant Church, corner B and Eighth streets southeast, to accommodate members of fifteen churches on Capitol Hill. The principal of the school is Rev. J. E. Gilbert, D. D., who is the author of the text-books used.

NEW YORK'S mortality statistics show an average of 240 murders per annum. Only sixty-five persons are arrested for these crimes, or a fraction more than one arrest for four murders. Thirty-three persons are brought to trial, which is about one-half the number arrested, or one for every eight murders. Of the thirty-three a little more than half—twenty—are convicted. This makes one conviction for every twelve murders. Out of the twenty persons convicted two are sentenced to death and three to imprisonment for life. It would seem that there is not much more danger in committing murder in New York than there is in running an automobile, and what is true in New York in equally true in Chicago and probably in many of the other large cities.

GOVERNOR WARFIELD has decided to enter the fight for United States Senator in Maryland, and it is said he expects the independent anti-organization democrats to rally to his support. It would surprise no democrat to hear that Gov. Warfield had become an independent, and when a democrat becomes an independent it is but one step more to become a republican—and the general trend is that way.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Oct. 8.

Chief Strategist Russell, of the New York telegrapher's union, and President Groves, of the Washington local, called at the Department of Justice this afternoon to present evidence to support the charge that the two telegraph companies are operating a conspiracy in restraint of trade. Russell brought with him all the data on the subject recently collected by President Small.

Formal charges were filed today with the Department of Justice against the Western Union Telegraph Company and the Postal Telegraph and Cable Company, charging them with a conspiracy in restraint of trade, under the Sherman anti-trust law. Striking telegraphers are behind the movement, and, it is said, the American Federation of Labor has loaned legal talent to aid in the preparation of the cases. It is alleged that the two companies have conspired to boost the tolls on telegrams.

The rain early today converted the neighboring Virginia roads into rivers of mud. This was the day of the horsemanship test prescribed by President Roosevelt for the grizzled veterans of the desk brigade at the War Department. Thirty staff officers of the army, a number of whom have not for years ridden anything more animated than a revolving chair, set forth this afternoon with fear and trembling, mounted on so many mettlesome cavalry horses, to prove that they are still entitled to wear the uniform and draw their pay. The President's order included all officers on duty in Washington between the grades of captain and brigadier general. A procession of army's buses, with blinds drawn down and a mighty sad looking bunch of men inside, started from the War Department at one o'clock for the rendezvous at Fort Myer. General Wm. P. Duvall, chief pace-maker and trouble-maker for the day, superintended the selection of mounts on arrival at the fort. As the maddening gallop then proceeded up hill and down, over the muddy thoroughfares, it was difficult, at times, for the impartial observer to tell whether the horses were coming or going, slipping as they did. Sabers flapped into the air and spectacles that has been wired on before the start, were sprinkled along the roadway. Witch hazel, arnica and alcohol by the gallon—the latter for application both externally and internally—awaited the tired and saddle-sore calvacade on its return to the fort. A second detachment will be tried out on Saturday. Reports as to the equestrian efficiency of the individual participants will be forwarded to the President on his return from the Louisiana cane-brakes.

Objections to President Roosevelt's policy of greater federal control over the railways of the country are expected to be made in the meeting of the National Association of Railroad Commissioners which began its deliberations with the Interstate Commerce Commission today.

News of the Day.

Governor Warfield, announced that he will stay in the Maryland senatorial race upon the condition that the party machinery is not manipulated in the interest of any candidate.

Joseph Wood, aged sixteen years, who was arrested on suspicion in connection with the murder of nine-year-old Ethel Nevins, whose mutilated body was found in a thicket not far from her home, in East Camden, N. J., on Saturday, made a confession last night in which he admits having murdered the child.

Attorney General Bonaparte has rendered an opinion in an important case involving the right of a State to solicit immigration from a foreign country. He holds that in the cases submitted to him the States violates the immigration laws in paying the passage money of the immigrant, and that in this respect the State does not differ in law from an individual.

A dispatch from Cumberland, Md., says that open warfare, bloodshed, and utter defiance of law mark the controversy between the American and Italian miners, at the plant of the New York Mining Company, near Mount Savage. Armed clashes occurred yesterday when men were brutally beaten, and a special train, carring deputies, was sent to the scene of disorder this morning.

Disappointed at his failure to secure a race for the America's cup in foreign waters Sir Thomas Lipton will race at home. He has commissioned Fife to design him the largest yacht admissible under the international rule, and will enter in all of the big regattas including that at Kiel. The British yachting public are still sore at the action of the New York Club in declining a race.

The convention of the National Citizens' Industrial Association opened at Battle Creek Mich., yesterday, with about 50 of the expected 200 delegates present for the first session. The feature of the opening meeting was the address by President C. W. Post. Mr. Post argued against labor unions and the closed shop. He said: "It is manifestly a much greater restraint of trade, annoyance, and loss to the people for the labor trust leaders to tie up a railway and prevent travel and shipments than it is for the oil trust to obtain from the railway rebates not enjoyed by its competitors, for the last is simply a peaceful scrap between business men."

Among the objects thus to be sold is a diadem presented to the queen by the people of Belgium on the occassion of her silver wedding anniversary. The diadem cost $30,000.

Paris, Oct. 8.—Work has been started by the government on transforming the Eiffel Tower, the tallest structure in the world, into a wireless telegraph station. It will be supplied with the most powerful apparatus ever made, and it is believed that when the station is completed wireless messages can be transmitted from the tower direct to New York.

Cyclone in Connecticut.

Woodbury, Conn., Oct. 8.—A disastrous cyclone visited this town shortly after 9 a. m. today. Following a down pour of rain a dark cloud of inky blackness approached the village making impossible to see without the use of lights. The George M. Proctor house was unroofed. Miss Cornelia Betts' house was nearly split in two.

Lessie C. Landis, aged 23 years, is dead in Norfolk as the result of laudanum poisoning. The young woman, supposed to be despondent as the result of news from her home in Tennessee that her mother had become paralyzed, drank two ounces of laudanum late Saturday night.

James F. Carver, a well known Frederick county farmer and former Confederate soldier, is dead at his home at Stephens City, as the result of a fall from an apple tree on Saturday. He was seventy-three years of age, and for years had been the sexton of Green Hill Cemetery, in Stephens City.

The Belmont estate, comprising over 1,000 acres, lying near Leesburg, has been sold by the owner, Alfred Stanton, to Mrs. Nancy A. Ferguson, of Pittsburg, Pa., for $30,000. The mansion house was built by Col. Ludwell Lee in 1820, and was at one time the home of the late Charles Fenton Mercer, of Londoun.

Henry A. W. Hartnagle, of Orange, who had been missing since September 27, committed suicide by shooting himself through the head, while in his room at the hotel Rennert, Baltimore, a few days ago. Mr. Hartnagle formerly conducted a liquor store at Charlottesville, but when that city adopted local option, he moved to Orange, from which place he disappeared on September 27.

The largest gathering of Masons ever assembled in Norfolk is attending the centennial grand conclave of the Grand Royal Arch Chapter of Virginia. The State committee in charge of the celebration is composed of W. J. Hubbard, chairman, Lynchburg; W. H. Sargeant, jr., Norfolk, secretary; John R. Charleton, Richmond, treasurer; James E. Alexander, Alexandria, and O. F. Byrd, Portsmouth. At the opening session last night Grand High Priest R. M. Ferguson, of Bristol, made his annual address, and the visiting grand officers were received and introduced with appropriate honors.

Capt Albert Evans and Mate J. H. Holloway, of a small oystering schooner, of Crisfield, Md., lying in Back river, 10 miles from Norfolk, were shot and the former was probably fatally wounded by William Parkinson, steward of the schooner, Sunday night. Parkinson, who is a native of Crisfield, boarded the schooner Sunday night and became boisterous. Captain Evans ordered him to keep quiet, but Parkinson seized the skipper's gun, which was lying on a nearby seat, and opened fire. Two bullets struck the skipper and the third hit the mate. Parkinson has not been arrested. Captain Evans' condition is critical.

Afflicted With Sore Eyes for 33 Years.

I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earles, Cynthiana, Ky. Chamberlain's Salve is for sale by Gibson & Timberman and W. F. Creighton & Co.

Georgetown, Oct. 8—Wheat 73a78,

EPISCOPAL CONVENTION.

Both houses of the General Episcopal Convention convened in Richmond yesterday morning after a recess of two days. The most important matters to come up before the two bodies was the proposed change in name to the American Church which provoked considerable discussion and some heated arguments in the House of Deputies, and was finally laid on the table until today and the executive conference of the House of Bishops, at which the proposed open session was denied as being impracticable.

One of the features of the session of the House of Bishops was the defeat of a resolution sent from the House of Deputies requesting that the former have open sessions.

The resolution introduced in the House of Deputies by J. Pierpont Morgan to reduce the lay and clerical representatives of the various dioceses in the House of Deputies was, after a debate, rejected. The western New York delegation, of which Mr. Morgan is a member, voted against the resolution.

A committee of five was appointed to raise a fund of $5,000,000 for the clerical relief fund. Adjournment to reassemble at 3 o'clock.

The committee on unfinished business introduced a resolution, which was adopted, asking to be relieved of further consideration of the question of appointing bishops to preside over negro congregations, as introduced by the delegation from Pennsylvania.

Deputy Gilbert, of Ohio, asked that the convention consider an invitation to hold its next triennial convention in the city of Cincinnati. The suggestion was referred to the committee on time and place. Immediately before the house closed its morning session Secretary Hart, of the House of Bishops, announced that he was the bearer of a message for the deputies and asked permission to read it. The resolution said that the House of Bishops concurred with the House of Deputies in recommending that the missionary district of Duluth be recognized as a diocese. The diocese of Duluth was accordingly admitted and a delegation was named to represent it during the balance of the convention.

The greater portion of the session of the House of Bishops was consumed in hearing the report of Bishop Montgomery on the Pan-Anglican Convention and Lambeth Conference in London, England, next June. The reports showed that the convention would be one of the greatest events in the history of the Episcopacy. The House of Bishops in this convention will be presided over by the Archbishop of Canterbury, the primate of the English Church. Every country will be represented.

A resolution sent to the House of Bishops by the House of Deputies, which is probably of the greatest interest to the public at large, that the House of Bishops have open sessions, was reported by the committee on rules of order to be impracticable and was not adopted by the bishops. Great disappointment was felt in the lobbies over the report of the committee, as it had been hoped that the public would be enabled to see and hear the bishops in session. Many reasons were advanced why this resolution should not be adopted.

A resolution from the House of Deputies was received, moving that a new prayer be adopted for the benefit of those who travel by land. It was stated that there is already in the prayer-book a prayer for those who go down to the sea in ships and a prayer of thanksgiving for their safe return. For those who travel by land, however, no provision has been made and the promoters of the resolution are endeavoring to have adopted a form of prayer for them. The resolution was sent to a committee, who will report on the matter later.

Rev. Cyrus Townsend Brady, the author, offered a resolution today asking that the clergy of the church be allowed to invite the ministers of other denominations to take part in the services of the church. This came in the nature of a bombshell, but before any discussion was allowed the resolution was sidetracked by being sent to a committee.

At the meeting of the Woman's Auxiliary, Miss Tomes, president of the New York branch, invited the members to New York in 1910, declaring the next general convention would be held there. While tais statement is somewhat premature, it is said that New York has already won the prize.

The Woman's Auxiliary decided to vote the women's offering, $223,000, to woman's work in home missions.

Secretary Taft at Shanghai.

Shanghai, Oct. 8.—In a drenching downpour of rain the steamer Minnesota, with Secretary of War William H. Taft aboard, reached port today. The storm interfered with the reception arrangements to a great extent. The Secretary at noon opened the new Chinese Young Men's Christian Association.

DRY CITIES ARE VERY WET.

Pittsburg Dispatch to New York Times.

"Send on evening train 22 unabridged dictionaries, 19 small dictionaries, and 17 hair mattresses."

The new clerk in a wholesale liquor house gasped when he read the order and decided the sender was insane. The old clerk put up 22 full quarts of whisky, 19 pints of whisky, and 17 quart bottles of wine packed in straw. Then he consigned the shipment to East Liverpool, that arid desert in Ohio, with a population of over 20,000, and not a single saloon.

Prohibition in East Liverpool and its neighbor, Wellsville, which is also "dry," is not a success, so far as prohibiting the use of intoxicants goes. In addition to the vast amount of liquor that is shipped into the two cities from Pittsburg, an average of 500 men from the two cities go each night to Pittsburg or Ironton, Ohio, get all they can drink, and then go back and do their fighting. The police declare that there has never been such lawlessness in the two cities as since the local-option law went into effect.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everythere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc. Sold by E. S. Leadbeater & Sons.

IN MEMORIAM.

In loving remembrance of ELIZA, daughter of Mr. and Mrs. William E. Hamersley, who died October 8, 1906, one year ago today, aged four years. While the sad recollections incident to the taking of the little one from the happy family group are ineffacable, the truth "that of such is the kindom of heaven" comforts those to whom she was near and dear.

Today's Telegraphic News.

Alleged Cruelties in Korea.

Hong Kong, Oct. 8.—Shocking stories are beginning to leak out concerning the cruelties the Japanese are perpetrating in Korea in the effort to restore peace among the inhabitants of the Mikado's new dependency.

There is no doubt of the truth of the reports that General Hasega, who has issued a proclamation, while promising pardon to those who lay down their arms at once, threatens vengeance not only against those who commit further acts of violence, but pledges himself to exterminate their families as well.

The number of victims of Japanese retaliation for attacks by the rebellious Koreans is estimated all the way from 10,000, to 20,000. Many of these have been killed in open fights, but enormous numbers have literally been massacred.

In hundreds of cases where Japanese have suffered violence at the natives' hands mere suspects have been mercilessly put to the sword, hanged or shot down in groups without even the formality of trials.

The Japanese military authorities are making no particular secret of the fact that they are being driven to extremes. They say they have no choice but to resort to the utmost severity or be driven from the country.

In Seoul, where the Japanese garrison numbers about 10,000, the natives' violence takes the form mainly of assassinating, rioting having been suppressed, but in the country districts scarcely a day passes that reports are not received from some district of mob violence by the Korean and bloody reprisals by the Japanese.

The Japanese force of about 10,000 men in the interior is divided into small detachments that the entire country may be policed as thoroughly as possible, and, in a number of instances, the natives have been able to overwhelm these by mere force of numbers and completely wipe them out.

Investigating Standard Oil.

New York, Oct. 8.—The Kellogg searchlight found its way into darkest Standard Oil today when the first light was thrown upon the mysterious operations of the liquidating trustees, who had charge of the concern from 1892 until 1899.

Through tables of figures prepared by government experts who have gone over the books for use in the federal suit to dissolve the Standard of New Jersey, Frank B. Kellogg believes he has proved that for five years after the court ordered the old trust dissolved it continued to exist.

New York, Oct. 8.—With the calling to the witness stand today of F. T. Cuthbert, President of the Manhattan Oil Company, Frank B. Kellogg, government inquisitor, resumed his efforts to find out how that company was acquired by the Standard Oil Company of New Jersey. The Manhattan was sold in 1899 by Commodore E. C. Benedict and Anthony N. Brady, neither of whom knew to whom it was sold. The division of the business of the Standard by the Standard's subsidiaries was detailed and Cuthbert testified that the refinery is not now in operation. The Solar Refining Company bought the refinery, but did not use it; the Ohio Oil Company purchased the producing wells and the Union Tank Company the tank cars.

Cuthbert said W. W. Johnson, managing director, and J. W. R. Francis, Secretary of the General Industrial and Development Company, for their company owned a majority of the stock of the Manhattan, but he stated it is voted by him.

A Forty-mile Gale

New York, Oct. 8.—All coastwise shipping was held in port today and incoming liners gave the Hook a wide berth with the exception of the Cunarder Lucania as a result of a swooping, swirling 40-miles-an-hour gale from the south which lashed the waters of the ocean off this port to mountainous heights throughout the morning hours. A drenching rain accompanied the storm. Telephone and telegraphic communication was seriously interrupted for a while.

All of the sound steamers were hours late reaching their piers. The Priscilla of the Fall River Line was compelled to lay to off Straford shoal on account of an accident to her steering gear. The rain fall for eight hours and approximated half an inch.

Will Investigate Steamship Lines.

New York, Oct. 8.—An investigation of the relations of steamship lines with corporations engaged in heavy export business by the federal bureau of corporations is expected to follow the evidence given by Philip Harrison, manager of the New York Lubricating Oil Company, in the government suit to dissolve the Standard Oil Company of New Jersey. Harrison charged that five ship lines had made rate discriminations in the Standard Oil Company's favor until his firm was forced to pay twice as much as the trust for the transportation of oil.

Trial of an Anarchist.

Paris, Oct. 8.—The trial of Jacob Law, the naturalized Russian-American anarchist, who fired on French troops from the top of a 'bus during the May Day celebration, began today. Law has written a letter to the court declaring he was suffering from temporary madness at the time and begging leniency.

Mrs. Law, mother of the accused, was called as a witness against him, but before being sworn, she was seized with a violent attack of hysterics and had to be removed from the courtroom.

New York Stock Market.

New York, Oct. 8.—All the talk on the floor of the exchange was about Northern Pacific dividend action. The price movements of the stock were not positive enought to base any speculative position upon. Fluctuations in the rest of the list were narrow in range and the hour ended with small fractional losses in nearly everything traded in. Government bonds were unchanged; other bonds were lower.

Harry Steinholtz, aged 15 years, while playing with his three-year-old brother on the fourth floor of the tenement in New York today was pushed out of a window by the child and instantly killed.

Out of Sight.

"Out of sight, out of mind," in an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles, too, and and chilblain disappear under its healing influence. Guaranteed by druggists. 25c.

EXHIBITION OF THE NEW DRESS GOODS.

The new Dress Fabrics are peculiarly rich and beautiful. This is equally true of American stuffs, which this season are more attractive than ever before, and the rare and elegant things that we brought over from Paris direct.

Broadcloth, Voile, Panama, Serge, and Cheviot Suitings are in the lead.

The Broadcloths have been reduced in weight until they are soft and supple enough for almost any purpose.

The New Striped Broadcloths are the novelty of the season.

Plaids, in blacks, hair lines, broken, and ombre effects, are very stylish—of course, plain effects hold their own.

For automobiling, golfing, and all outing wear, the rough, snappy tweed are the favorites.

Serge for tailor costumes of all kinds is very good.

An especially pretty selection of Scotch and French plaids is shown for children's school dresses.

While there is nothing especially new in fabrics, the new colors and new color combinations more than make up for it.

Never before have we had so many new shadings of one prime color. Take purpose, for instance: Bishop, prelate, eminence, mulberry, egg plant, violet, and manuve—all are shades of purple, Then take green: Lanier, bronze, lizard, caimay, are all new and very popular shades.

Brown in all its shades continues very good.

IS YOUR COAT DUSTY?

You Probably Have the White Scab of Dandruff on It.

If your coat or shoulders have a white dust upon it, the chances are that it is from dandruff. The only way to permanently cure dandruff is to remove the cause, which is a germ. Newbro's Herpicide kills the germ. Every toilet table should have such a hair-dressing that contains also the destroyer of the dandruff and hair falling germ. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good" will not do the work of genuine Herpicide. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—50 and $1.00. E. S. Leadbeater & Sons, Special Agents. 62

SENT TO THE CHAIN GANG.

Harry Brown was arrested Sunday charged with drunken and disorderly conduct, and left $2.50 collateral for his appearance before the Police Court yesterday morning. He could not be found when the case was called and forfeited his deposit. He was picked up again yesterday by Officer Lyles on the same chronic charge, and was brought before the court this morning. His wife was the main witness against him, as she has been on divers other occasions. Brown in his defense begged to be given another chance, but Justice Caton told him that he has in past years been given thirty-six chances. He was accordingly sent to the chain gang for ninety days, and was told that should he be brought before the court again after the termination of his sentence he would be sent up for one hundred and twenty days.

BULLET REMOVED.

John W. Mullen, who was shot in the woods near Rosslyn, Alexandria county, on the 29th ultimo, while in company with Miss Amelia Weiss, was operated on at Georgetown University Hospital yesterday. Mullen was shot twice, once in the mouth, the ball lodging in his neck, and once in the back part of the thigh. Physicians succeeded in removing the bullet from the neck, but did not find the other one. Mullen is believed to be on the road to recovery, and will be dismissed from the hospital within a few days. Miss Weiss is still in custody, and still asserts that the assault was comitted by a negro.

FIRE AT OXON HILL.

The barn and sawmill on the farm of Ernest Burgdorf, at Oxon Hill, Md., opposite this city, were destroyed by fire about 12 o'clock last night. The damage is estimated at about $10,000. The origin is unknown. Several horses were in the stable in which the fire started, but they were rescued. Seventy tons of hay and a small quantity of grain and lumber were burned. It is thought that the sawmill machinery and boiler were ruined. A huge bank of light illuminated the eastern heavens while the fire was in progress, which attracted much attention in this city.

COLORED WOMAN ARRESTED.

Annie Green, colored, who is wanted in Rosslyn, Alexandria county, on the charge of assault to kill, has been arrested in New York. Mr. Crandal Mackey, Commonwealth's Attorney for the county, has wired the New York authorities to hold the woman until extradition papers could be prepared. Mr. Mackey says the Green woman last year took the infant of Grace Daniels, also colored, whose home is at Rosslyn, and, after placing the child in a coal scuttle, carried it into the woods and left it there. The infant died, it is alleged, from exposure.

CASE CONTINUED.

The case of Linden Haddox, the youth who shot another boy named Justus Schneider, on a wharf between Queen and Princess streets, last Sunday afternoon, and Milton and Malcolm Elliott, two other youths, who are charged with being accomplices, was called in the Police Court this morning. The injured boy being unable to appear, the case was continued until the 17th instant. The accused will be admitted to bail in the sum of $500. Haddox is represented by Mr. L. H. Machen.

OPERA HOUSE.

The attraction at the Opera House next Thursday night, "The Shoplifter," is considered one of the best plays of its kind on the road. Many new and novel features will be introduced, and a company of French and English singers and dancers will be with the show. Among the many scenes will be a London music hall with a performance going on. During this act a fight will occur on the stage, during which several of the participants will be injured, the furniture broken up and everything breakable demolished.

CONCERT.

The lovers of the old music should certainly not fail to attend the "Old Folk's Concert to be given at the Opera House on the 16th inst. for the benefit of Grace Church, at which time some of Washington's most popular singers will be heard. Among them will be Mr. Dana Holland, Mr. Roland Roderich, Mr. Jas Hicks, Mr. Jos. Matthiew and Mr. Wm. Mills. The programme will consist of solos, duets, quartets and choruses of the old music, and all who attend are promised a pleasant evening.

SOCIAL SESSION.

Several candidates were initiated at the meeting last night of Alexandria Lodge of Elks. At the conclusion of the ceremonies a social session was held. About forty members of the order from Washington and vicinity were present. Mr. Charles C. Carlin presided over the session and a musical and literary programme was rendered. Among the visiting members was Exalted Ruler Chisholm, of Charlottesville Lodge.

FINED FIVE DOLLARS.

Special Officer Mason last night arrested a colored boy named Robert Williams charged with disorderly conduct at the Opera House. From the evidence given in the Police Court this morning it seems that Williams is one of the gang of boys who have amused themselves throwing nails at the moving pictures. He was fined $5.

TUESDAY EVENING, OCT. 8, 1907.

UPHELD BOYCOTT.

In dismissing Saturday the appeal of John A. Locker in his suit to have the American Tobacco Company declared a combination in restraint of trade because it and its agents had refused to sell goods to him, the Appellate Division of the Supreme Court, Second Department, of New York, declared that a so-called "trust" as organized today cannot be considered a combination or conspiracy within the meaning of the state anti-trust law unless it is shown that by separate corporate acts the individual corporations controlled by the parent company have conspired to violate the law. The decision reiterated in vigorous language the dictum of the law that any person or corporation may refuse arbitrarily to sell its product to anyone, with or without sufficient reason therefor.

The decision is regarded by lawyers as one of the most far reaching and important that has been rendered in New York state in years.

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotton rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by Gibson & Timberman and W. F. Creighton & Co.

Hard Times in Kansas.

The old days of grasshoppers and drought are almost forgotten in prosperous Kansas of today; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold remedy and lung and throat healer ever discovered. Guaranteed by all drug stores. 50c and $1.00. Trial bottle free.

A weak Stomach, causing dispepsia, a weak Heart with palpitation of intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by E. S. Leadbeater & Sons.

MINISTERS LEAVING PULPITS.

Reports received by the Chicago Tribune from 10 of the Methodist Episcopal conferences in Illinois and neighboring States show that the question of higher salary for the average minister of the church has reached a crisis. The general expressed opinion is that religious work soon will suffer for lack of preachers unless salaries are raised. In many of the conferences just held there was an exodus of preachers from the pulpit to enter business life. The higher salaries movement was discussed and advocated at practically all the conferences. Salaries have been advanced about $100 each during the last four years, but this increase, which has not kept pace with the increase in cost of living, has failed to stem the ministerial stampede into business life.
